

Gen 2 LED Task Light

Improved Circuitry at the Same Low Price!

Why LED?

LEDs have been proven to last longer and use less energy than their outdated fluorescent brothers. Our LED task light attaches to the underside of a flipper door unit or shelf using magnets for easy adjustment. Available in silver finish with dimmer. Cord management available.

Features

Optional Chaining Connector

Rated Wattage: 0.2W/ea, 45 bulbs total 9W

Rated Voltage: AC 100~240V

Advantages: Better brightness and heat dissipation

Electrical Savings	Each Light runs at ~9 watts, which is a 90% energy savings for comparable incandescent and 66% energy savings for comparable fluorescent lights.
Life	25,000 hours
Color Temperature	3000-6500K
Chaining Capability	Daisy chain up to four lights together on one power pack.
Mounting	Mount by either magnets or screws.
Light Output	App. 400-420lm
Light Efficiency	App. min 1000lux @ 40cm
Heat Output	The lights do not build any heat!

TLN-LED (Task light with power supply)	\$329
TLN-LED-6 (Connector cord for 2 lights under one shelf).....	\$9.95
TLN-LED-19 (Connector cord for side by side shelves).....	\$12.95
TLN-LED-24 (Additional task lights)	\$205
TLN-LPS (Additional power supply)	\$125
